EDUCATION

Emory University Full Stack Academy CompTIA Security+ Certification November 2024

Training Concepts CompTIA Networking+ Certification April 2026

- Networking Fundamentals: Gained understanding of technologies and protocols such as TCP/IP, DNS, DHCP
- Incident Response: Executed basic incident response procedures adhering to NIST Cybersecurity Framework
- SIEM: Monitored and searched through data using Splunk, identified threats and remediated incidents
- Vulnerability Assessments: Assessed level of risk and vulnerabilities using Nessus; recommended mitigation measures
- Threat Hunting: Conducted proactive threat hunting using the MITRE ATT&CK framework to identify threats
- Formed a solid foundation of computer knowledge including Windows client/server and various Linux distros
- Mastered common CLI navigation for Linux through Fullstack's CTF challenges
- Learned Python basics and Bash scripting as well as PowerShell cmdlets
- Practiced offensive techniques that aligned with cybersecurity frameworks such as NIST and MITRE ATT&CK
- Wrote and modified rule sets for IPS/IDS such as Snort and ACLs for firewalls based on parameters provided
- Used packet capture tools such as Wireshark and TCPdump to investigate traffic for Indicators of Compromise
- Executed basic incident response procedures and gained familiarity with digital forensics tools and utilities
- Performed simulated threat hunting by analyzing large data sets in Splunk
- Gained familiarity with a variety of tools including Snort, Burp Suite, Metasploit, Nessus, Nmap

Georgia State University June 1995
A.S. Business Administration

Kennesaw State University June 2004
Completed 25 Credit Hours towards Bachelor of Business Administration in Professional Sales
